**JONES SPEAKS ON PURCHASE OF MEMORIAL PARK**

Former statements challenged, Candidate Says; Asks Public to Draw Own Conclusions in Case.

Statements made at former meetings, regarding purchase of Memorial Park by city, have been challenged, Murray B. Jones declared Monday night at George Washington Junior High School.

He formerly stated that Hogg brothers sold the Memorial Park site to the city at a large profit. In his speech Monday night, he said: "The abstracts on the property show the Hogg brothers paid $251,784 for the property and sold it to the city for $118,070, or a difference of $133,714."

But since I made my former statement, Henry Stude, vice president of the Hogg Brothers, declared the Hogg Brothers were not interested in the property, and the city was selling it at a loss. My statement is incorrect, I believe, in saying the city is selling the property at a loss."

**COUNTY OFFICIALS TO INSPECT PAVED ROAD TO ST. LOUIS**

J. C. Keeler, president of the board of county commissioners, a commission-elect, and an engineer, will leave Wednesday for St. Louis to inspect the paving article. County Judge Norman Atkinson, of the board of county commissioners, a commission-elect, and an engineer, will leave Wednesday for St. Louis to inspect the paving article.
ROAD TO ST. LOUIS

Count Judge Norman Atkinson, a county commissioner, on Wednesday at the permanent road between Houston and St. Louis. The Bates type of permanent paving is to be inspected by the commission. The trip is being sponsored by the Portland Cement Company of Canada. A commission on cement paving was formed by the City Council of Chicago, and the plans are being considered by the city. The commission is under the direction of the late J. H. Jones, a former president of the company.

A NEIGHBOR'S VIEW OF THE MAYOR'S RACE

Here is an editorial that shows us municipal politics as other see it. It is an editorial from the Alton Sun of last week:

"Honor? 27 miles north of Alton, Houston, the West coast growing city in the South, is today the scene of a heated political campaign for the mayoralty of Houston and other city offices.

The opponents in the race are Mayor Holcombe, who has been in office for several years, and his opponent, Mr. Rutter, who is a newcomer to the political arena.

It seems the most serious challenge to Mayor Holcombe is that his position has been weakened by the failure of his administration. He does not confine himself to the duties of being mayor, but he also devotes much time to the development of the city, which is his main interest. He has been a strong advocate of urban renewal and has made many improvements in the city.

CALVIN CONDEMNS "SINGLE SHOOTING"

To the Editor of The Chronicle:

Some of our readers have expressed the opinion that "single shooting" is not only advisable, but also necessary. This is a violation of the spirit and intent of the letter of the law that "the license of an individual" is to be regulated. The exercise of a first, second, and even a third choice, however, is to be limited to the necessities of the situation and not to the whims of the person in charge.

The development of the city of Houston is of vital interest to all Gulf Coast dwellers, on whom we believe the defeat of Mayor Holcombe is to be considered a calamity to not only Houston but to the entire territory surrounding it.

The issue is to be decided against Mayor Holcombe is that his position has been weakened by the failure of his administration. He does not confine himself to the duties of being mayor, but he also devotes much time to the development of the city, which is his main interest. He has been a strong advocate of urban renewal and has made many improvements in the city.

ART

Are you a reader? A writer? A painter? A photographer? Do you have a story to tell, a message to share, an idea to express? Whatever your talent or passion, there are countless ways to bring your creativity to life.

PERSONAL ARTIST

Rub gently and upward from the Heart as Blood Flows To the Brain. Rub gently and upward from the Heart as Blood Flows To the Brain. Rub gently and upward from the Heart as Blood Flows To the Brain.

Many people have been known to believe that the heart is the only organ that is subject to the effects of art. However, recent studies have shown that the brain is also affected by artistic stimuli. In fact, art has been found to have a profound impact on the brain, enhancing cognitive function and promoting emotional well-being.

Art, in its many forms, can help to reduce stress and anxiety, improve memory and attention span, and even aid in the healing process. Whether it is music, painting, sculpture, or dance, art has the power to touch the heart and soul, to inspire and to heal.
